**Pellaq® by Skivertex®**

Tech Sheet #2017 Sample Card #27400

Issued 06/29/2015

### **Pellaq® by Skivertex®**

**Latex saturated material with striking visuals, rich tactile quality and superior performance**

#### **Overview**

A premier covering material chosen by designers for its striking visuals, rich tactile quality and superior performance, offering a sophisticated, rich appearance to meet your visual and tactile objectives. Latex-saturated, high gloss, simulated leather in a range of high-end reptile patterns.

#### **Information**

- Latex-saturated covering material
- Thickness: .0096
- Standard Width: 54" (137.16 cm) put up on 100 yard rolls on 3" cores
- Colors: 14 standard colors and embossings, made-to-order colors are also available
- Weight: Approximately 560 pounds per 1,000 yards

#### **Features**

- Manufactured in USA
- Colorfast and moisture resistant
- Offered in enticing visuals, reminiscent of leather in bold or subtle reptile patterns: Lizard, Croco, Mallory, and Glean
- Offers a scratch resistant, high-gloss surface
- Invites touch--A high touch material with tactile appeal
- High impact, low cost leather alternative

#### **Manufacturing Techniques**

Acceptable gluing includes: Animal, Polyvinyl Acetate (PVA) and Hot Melt.

#### **Decorating Techniques**

- Foil Stamping
- Bind Stamping
- Screen Printing
