### Granulated Hide Glue

Tech Sheet #2189 Sample Card #N/A

Issued 07/01/2015

## Granulated Hide Glue Dry granulated Hide Glue

### Overview

Granulated Hide Glue is a high grade dry animal glue. It is typically used as an accelerant to speed up the set time of other animal glues. It may also be used as a raw material when the user wants to formulate their own adhesive, typically in woodworking and printing applications. Granulated Hide Glue is recommended for applications where flexibility is not desired. Use Gane's Electric Glue Pots with hide glue.

### Information

- Operating temperature - 140° F
- Form: Granules
- Put up: 50 pound bags MINIMUM: 1 pound
- Weight: 50 pounds
- Usage:
  - Machine apply
  - Hand apply with brush

### Features

- 100% non-toxic
- Environmentally friendly
- Biodegradable
- 100% recyclable
- Open time, tack level and viscosity easily adjusted to different running parameters
- Easy clean up with water
- Water-soluble
- Forms a strong long-lasting bond
- Application issues can be corrected by operators with temperature, dilution and application levels

### Applications

- Albums
- Bookbinding
- Decorative Packaging
- Hobbies & Crafts
- Looseleaf
- Luggage & Cases
- Menus & Hospitality
- Office Products
- Point of Purchase
- Portfolios
- Scrapbooking
