**Backcoat 2:** Is a pigmented aqueous acrylic coating which closely matches the face color. This is a semi-matte coating which can be glued but will crack under both wet and dry conditions. Test prior to manufacturing.

**Backcoat 3:** Is a pigmented aqueous acrylic coating with a clear top coating which will match the color and appearance of the face. This is a durable coating with dirt and water resistance. When properly scored, it is resistant to cracking under both dry and wet conditions. Special adhesives must be used for gluing. Use Gane's 53s.

**\*Broken Roll Charge:** Add \$.50 per yard to any order (single item) requiring measuring and cutting.
