Gane EuroWhite™ White One-Side* Graphic Board **Low density, graphic board**

Overview

Gane EuroWhite™ White One-side Graphic Board is a low-density three-ply board product designed with performance in mind. It features a smooth finish with exceptional lay flat properties. Produced on Fourdrinier paper making equipment, its shorter and more uniformly distributed fibers as well as control in the production process assure superior warp resistance to chip products. Gane EuroWhite™ White One-side Graphic Board is made from 100% recycled paper. A white kraft paper is laminated in-line to one side to achieve a clean white surface.

* **.050 28 x 40 available as White Two-Side.**

Information

- Smooth finish
- Exceptional lay flat
- Thickness - .050", .060", .080"
- Standard sheet sizes: 28" x 40" - .080 Two-Side also available as 41 x 29
- Other thickness' and sheet sizes available
- On-site conversion for custom cut-to-size pieces

Features

- Exceptional lay flat properties
- Cleaner white surface than vat lined chipboard
- Less expensive than laminated SBS C1S
- Lightweight yet rigid product
- Greater yield per ton than high-density board products
- Made from recycled paper
- Compostable and recyclable

Manufacturing Techniques

Acceptable gluing includes: Animal, Polyvinyl Acetate (PVA) and Hot Melt

Decorating Techniques

- Foil Stamping
- Screen Printing
