## **GC-300 Permoflex Animal Glue** **Permanently flexible animal glue**

### **Overview**

Permoflex is a line of permanently flexible animal glues. They are typically used in applications such as case making, bench work and flat mounting. Permoflex glues melt down readily, spread easily, set firmly and will not crack or crystallize. GC-300 is widely used in bench work. It offers longer open time with average tack.
